How It Done.

It has been suggested that the ratification of the Fifteenth Amendment by the Southern States should be engrossed on cartridge paper, written with the point of a sword, and forwarded to Washington by a corporal's guard. This would certainly be a fair illustration of the mode adopted to enforce the ratification of this vile Amendment.

Of all the jugglery every practiced by the party in power, this last is the most contemptible, and if it were not so serious in its immediate effects upon the country, would excite the humorous feelings of every one who watches the manipulations of its managers.

A military province is brought up from its degraded position, propped up by negroes and scalawags, is called a "State" while the ratification is choked out of it, and then over it goes into the depth of military despotism, with the negro heel upon it. If then the foot of the negro cares and kissed, the world will be State can obtain representation in Congress, sends a Yankee or a negro to Washington, and is again honored with the title of "State." What a sham is all this upon government!

The corruption of the Radical party will work its downfall, and this Fifteenth Amendment is one of the mightiest levers put into the hands of the Democrats to be used in its destruction.

It is a suicidal and short-sighted policy, for the Radicals to select an instrument that can be so easily and effectually turned against them. They will too late cry for relief from their own misdoings.

They cannot shake their "gory locks" at the Democratic party when suffering from the evils that will return to plague the inventor. New issues and a new era is presented in our political history and the Democratic party has an open and plain road to march through the ranks of the cowardly enemy to the heights of victory.

We repeat that the Radicals have given us a stick to break their heads. It would hardly be human nature not to use it.

Any poor little pitiful mind that can see no further than the end of the snub nose stuck on its imbecile face, that gathers from these remarks that we are in favor of, the principle of negro suffrage is welcome to the conclusion.

Our Representative.

On last Monday, County Court day, Hon. J. F. Wright made a speech at the Court-House in Shelbyville, in explanation of his course as the Representative in the Legislature of Shelby county.

We regret that we have not space to give a synopsis of his speech. He defended very earnestly his opposition to the appropriation to the Big Sandy River improvement, claimed to have favored all legitimate turnpike enterprises, advocated the Cincinnati Railroad, and believed that the charter asked for it had been so closely guarded that it would not meet with successful opposition.

But it was in regard to our own Railroad enterprises that Mr. Wright seemed to take a position that was directly opposed to the express opinions and wishes of his constituents. We are convinced that if Mr. W. is disposed to respect and regard the will of the people as manifested by the crowd in attendance upon a meeting called by himself, and that seemed to be composed of representative men from all parts of the county, that he will not only forbear to oppose the measure, but will yield a hearty support. We of course refer to the pending amendment to the Shelby Railroad Charter.

Mr. C. M. Harwood made a brief response to Mr. Wright, in which he explained the object and effect of the amendment, and demonstrated to the entire satisfaction of the crowd that Mr. Wright was in great error in the position he had taken upon this the most important measure in, so far as our county is concerned, that will be brought before the Legislature during his term of office.

He showed that the amendment was absolutely essential to secure the extension of the railroad to Hazardburg, and that the trifling sum of \$100,000 from this county was all that was required to secure this great result. He also showed that the proposition was as just and fair and as well guarded as it could be made. The hearty response that his remarks received from the large crowd in attendance convinced all who were present that Mr. Wright is misrepresenting his constituents upon this question.

CONGRESS.

THURSDAY, February 10—SENATE.—The bill to supply deficiencies in the appropriations for the Navy Department was passed. The Mississippi bill was debated for several hours, but without reaching any conclusion.

HOUSE.—The resolution calling upon the President for information in regard to the imprisonment of American citizens in England was debated for a short time. The Legislative Appropriation bill was considered in Committee of the Whole. Mr. Butler's motion to strike out \$500,000 for mileage was rejected. After an amusing debate between Messrs. Cox and Butler, the House adjourned.

SENATE.—Friday February 11. A bill to enlarge the Capitol grounds was passed. Mr. Sherman introduced a resolution requiring the United States to preserve a strict neutrality in the war between Spain and Cuba. It was referred to the Committee on Foreign Affairs. The Mississippi bill was debated, but no conclusion reached.

HOUSE.—A resolution was passed calling for the expenditures of the Freedmen's Bureau. A resolution was adopted calling for information as to the aggregate expenditures made for public and private purposes in the District of Columbia since its establishment as the seat of Government.

FOR GOVERNOR.—At a meeting of the colored citizens, held in New Haven, on February 7th, the following resolution, among others, was adopted:

Resolved, That Marion C. Taylor, of Shelbyville, our first choice for the next Governor of Kentucky, is a sound, true and tried Republican soldier, who, served the country on many a hard and well contested battle-field.

Some mistake about that, isn't there Colonel? You don't propose to give up that seat in Congress, for which we have heard you appeal so eloquently and so often in days of yore?

"Guess those 'cailed pussons' have mixed things."

—*GIM ME SOME OF DAT PIE.*—How do our readers like that? seen, reported upon the outside of our paper which actually occurred in the South Carolina Legislature. It is rich, but not so rich that it could not be reproduced in our Legislature if the Radicals were to divide with their colored friends the offices to which they aspire.

But stick to the offices, white Radicals you won't have enough to spare if the colored troops did "fight nobly."

Dawes has succeeded, by his speeches, in getting the heads of the departments aroused, and they are going over their estimates to see if some mistake might not possibly have been made. The Secretary of the Treasury has already reduced his estimates several millions of dollars. By the time Dawes has shot off another gun there won't be very much left of the administration.

We are indebted to Messrs. Washburn & Co., seed merchants, Horticultural Hall, Boston Mass., for a choice lot of flower seed, embracing twenty varieties of beautiful annuals. We make this public acknowledgment that our friends may claim their address.

Farmers' Club.

The Discussion of the question, "Whether the Moon exerts an influence upon vegetation, and if it does, to what extent?"

Dr. W. M. Rogers and Prof. J. W. Dodd, having been requested at the last meeting of the Club to present their experience and views upon the lunar influence upon vegetation, presented the following letter, which was read to the club at last Saturday afternoon:

Business Notices.

When we consider the number of human beings that die with Consumption every year, the importance of a medicine that will cure all pulmonary affections that tend to this complaint, and even to arrest the destroyer after it has indicated its presence in the system, must be admitted to be beyond all estimate. This wonderful power is claimed to be possessed by Allen's Lung Balsam.

Important to the Farmers:

SUPPORT YOUR HOME MANUFACTORY.

Farmers, consult your own interest and that of your community, and purchase your plows from E. M. Ward & Co. They are making the Briney Plow, and keep constantly on hand the Dodge Plow, which took the first premium at the Kentucky State Fair last year; also the Richmond Steel Plow. Why not sustain a firm in your midst fully competent to successfully compete with the best manufacturers in the country? It has been so often attested by the best farmers in the country, the plows manufactured and sold by this firm, cannot be excelled by any ever imported to this community, why not support your Home Manufacturer? This firm asks no sacrifice on the part of farmers, but only a fair opportunity to more fully establish the truth of what has been stated above.

IMPORTANT.—Those who have attained to the greatest eminence in the science of Medicine, and who have by a life-long study, and experience with the human organism, obtained great insight into the origin and pathology of disease, are yet, notwithstanding all their profound and learned theories, confessedly groping in the dark as to the **cause** of any and all diseases that affect man's race. But this much has been clearly elucidated, and it is come an association with the medical profession, that by far the greatest number of our citizens are directly traceable's a derangement of the digestive function, and if "good digestion wait on appetite," health will be almost uniform. Acting upon this axiom, the inventor of Dr. Harley's Celebrated Stomach Bitters has been eminently successful; judging from the many testimonial that are constantly pouring in upon him through the mails and press, in preparing a remedy to meet and "nip in bud" all this long list of obscure and distressing derangements that render life scarce worth the living. We are glad to learn that the public there are beginning to appreciate these Bitters upon their intrinsic merits, and that they can be had everywhere.

The Shelby Sentinel

The "Break-Neck" Insurance Co.

Everybody should get insured against accidents. No matter if you belong to one of the "best families," accidents will happen. Get out a policy. The old proverb says "Honesty is the best policy," but that was before accident insurance companies started. Now the best policy is a policy in the "Break-neck."

The other day a man in Chicago fell out of a fourth story window. He had no insurance and consequently was killed. Another man on the same day fell out with his wife. He was insured in the "Break-neck," and is ready to fall out again.

A woman driving a spirited horse in St. Louis was run away with. Being insured against accidents, she wasn't alarmed a bit, stopped the horse and came back safe. Her policy running out, she neglected to renew it. Shortly after she was run away with again. Her husband's partner ran away with her this time and she hasn't come back yet. Don't fail to renew your policy, particularly if it is in the "Break-neck."

At Dubuque, Iowa, a man was kicked by a horse. The horse wasn't insured, and he got kicked back.

Near Paris Ky., a man, while engaged in running a circular saw, had his arms taken off. They consisted of a cavalry sabre and a double barreled shotgun. The man who carried them off had an accident insurance, and he hasn't been caught yet.

In Utica, N. Y., a man accidentally got married. Being insured in the "Break-neck," he will receive \$15 a week until he recovers.

Andy Johnson writes from Tennessee: "My Policy has run out. Send me another by express."

Near Portland, Maine, a poor man fell from a loft and broke his neck. He received his insurance, \$3,000, from the "Break-neck," with which he was able to set himself up in business, and is now doing well.

Our agent at Cleveland, Ohio, writes: "A lumber-horse ran away with a hoisted wagon, and tipped in the street over a small woman and six elderly children. The horse began to cry and the wagon fled freely at the nose, but otherwise the street is doing well. No insurance."

A boiler exploded at Memphis, blowing the engineer into the air quite out of sight. He will receive \$15 a day until he comes down again.

A hog-driver in Mt. Sterling, Ky., was very much hurt by a fall—fall in pork. No insurance.

A man ran away from Littlefield, Ill., to avoid paying his debts. He left a family (not being able to take them with him). No insurance.

A man accidentally fell from a steamer at New Orleans into the river. As he was sinking the third time, he suddenly recollects that his policy in the "Break-neck" had expired. He then swam ashore, sought out the agent, renewed his policy, and immediately returned to the river and sank the third time in a serene and tranquil manner.

Political "Best Hols."

"Best hols" is a slang word which is generally understood to mean forte; as it is frequently said lying, or stalling, or swindling is such or such an one's best bolt.

This best bolt business has come to be a very prominent attribute of Republican members of Congress, and each seeks to distinguish him self with some sort of best holt.

It is Davey's best holt to be economical, and to let every one know of it in the most complete manner.

It is Logan's best holt to have the capital removed. He didn't originate this, and, as the scheme was altogether too stupid for any one else to champion, his has stepped in.

He don't know anything else, nor much of this.

It was Bingham's best holt to hang Mrs. Surratt.

It is Beast Butler's best holt to tell him about it, and accumulate property.

Schenck's best holt is to boss the whiskey rings and make money.

Garfield's best holt is to look after bondholders.

It is Senator Carpenter's best holt to go in for Cuba and the female pantaloons; about as sincerely for one as the other.

Sumner's best holt is Summer and other gentlemen of African descent.

Trumbull's best holt is to expose Senator Wilson's best holt to get a premium for Mrs. Lincoln.

Grant's best holt is to get one for himself, and everything else he can.

Mr. Grant's best holt is to speculate in gold, and then try not to have it known.

Horne Greeley's best holt is running for Compromiser, and having pig-iron nightmair.

Senator Chandler's best holt is in getting drunk, and swearing off. Dick Yates will discount him in this respect.—*New York Democrat*.

T. J. K. Dargan was killed at Graham's Cross Roads, South Carolina, on the 18th inst. He had gone to see Reynold's Messenger. Owing to the rain, there was no exhibition that night. A large crowd had assembled in a store near the depot, and in it was Mr. Dargan. Some called him out, and a boy stepping out from the store, ran through the chest, and in a few minutes died. It was charged by some one present that an Indian attached to the messenger had committed the murder. A jury of inquest was held, and the verdict stated that the deceased had been killed by some person unknown. Mr. Dargan was about twenty-seven years old, and had been recently appointed a Magistrate.

INCIDENT IN ROUSSEAU'S LIFE.—A few days previous to his departure from this city, he called on the medical examiner of an insurance company in that city, stating his desire to take out a policy. Inflating his large chest and striking it, he remarked: "You needn't take the trouble to examine me, doctor. I am in a hurry. I'll live forever; a doctor in Washington said I couldn't die of disease. I'm a sound man, sir." In ninety days the General was dead.

A little three-year-old girl in New Orleans recently astonished her mother, who attempted to correct her by motioning her away with a chubby little hand, and scornfully saying: "Shoo, fly, don't bother me!"

Gallaudet: This is to certify that I have been a reader, and tried all the tones I have ever seen advertised, and none equal to ours. Hurley's Bitters highly spoken of, and tried a bottle, with little faith in before I commenced, and now it appears to me that my sympathies and a larger integrity of conviction.
